**istor DUPLEX SWISS SHARPENER - 19 cm**  
Unique Grinder and Sharpener in one tool for the craftsmen

---

Weight net 93 g  
Weight gross 136 g  
Length 19 cm

---

**Unique tool with double function Grinding (A) and Sharpening (B) for the maintain of Pruning/Garden Shears and Secateurs. Eliminates small nicks on damaged blades.**

Also recommended for Japanese Ceramic Knives

The aluminium handles has 2 finger protections. One side contains a diamond coated steel blade, the other side has an insert made of different hard metals.

**Instructions: A)** With the flat side of the Diamond Grinder grind the blade with a rotating movement, respecting the existing angle (like a grinding stone). **B)** After gently pull with the sharpening edge along the blade also respecting the existing angle. **Work only with one side** of the sharpening insert and always from the handle to the top of the blade. When sharpening Scissors, Secateurs and Pruning Shears only sharpen the bevelled side.

**Maintenance:** Clean the dirty Diamond Grinder by scrubbing it with water and a scouring agent.

Five-year warranty for manufacturing defects
